In the name of Allah the most gracious the most merciful.

Praise Allah and pray on his prophet,

To the esteemed brother, Sheikh Mahmud, Allah protect him

Islamic greetings,

I hope this message will reach you, the family, the offspring, and all the brothers in good condition.

I received your first and then your second messages, Allah reward you for the totality of what it contained. To start, I want to talk about the most important point in our modern history, the point of launching the nation’s revolution against the tyrants, and for which I ask Allah to make a start for reviving the dignity of the religion and its glory.

What we are witnessing these days of consecutive revolutions is a great and glorious event, and it is most probable, according to reality and history, that it will encompass the majority of the Islamic world with the will of Allah, and thanks to Allah things are strongly heading towards the exit of Muslims from being under the control of America, and the Americans worry about that, which is great; the Secretary of State indicated in her visit to Yemen that, “We worry that the region will fall into the hands of the armed Islamists” and that warning was directed to ‘Ali ‘Abdullah Salih and the remainder of the rulers during the revolution in Tunisia, before the revolution in Egypt that toppled Mubarak erupted. The fall of the remaining tyrants in the region became a must with the will of Allah, and it was the beginning of a new era for the whole nation.

These events are the most important events that the nation has witnessed for centuries, as since the nation has entered its current stage it has not witnessed any movements to save it that are as large as the all-encompassing movements that were launched with the grace of Allah these days, and it is known that comprehensive popular movements inevitably change the conditions, so if we double the efforts to direct and educate
the Muslim peoples and warn them from the half solutions, while taking care in providing good advice to them, the oncoming stage will be for Islam, Allah willing.

Page 2

Knowing that the movements calling for half solutions like the Brotherhood have witnessed a spread of the proper ideology among their membership in recent years, especially in the growing generations, and one of the Brotherhood members discussed that phenomenon in a lengthy question among the questions addressed to Sheikh Abu Muhammad; also it was mentioned in many of the media vehicles that there is a sizable direction within the Brotherhood that holds the Salafi doctrine, so the return of the Brotherhood and those like them to the true Islam is a matter of time, with the will of Allah. The more attention paid to explaining Islamic understanding, the sooner their return is, so preserving the Muslim movements today and adjusting their direction requires effort and attention, keeping in mind the necessity of being kindly to the sons of the nation who fell under misguidance for long decades.

That great duty, which is the duty of guidance and advice, which is connected to the fate of the nation, does not find he who fulfils it aware of the guidance that is disciplined with jurisprudence. I have asked in the past that the faithful in the nation select from among themselves a number of scholars and wise men, who then form a Shura council that follows up on the issues of the nation and provides guidance, opinion, and advice; but after they delayed in conducting that duty, and the nation entered that pivotal stage, it became incumbent upon us, the mujahidin, to fulfill that duty and to plug that gap as much as we can, which became one of the utmost duties after faith, so that the nation is liberated with the will of Allah and the religion regains its glory.

There is no doubt that the duties on the mujahidin are numerous, except that this great duty should take the main share of our efforts so that we do not shortchange it and expose the nation shake-up today, to what the revolutions against the Western occupation got exposed to in the past.
And we have to remember another important issue, which is that Jihad in Afghanistan is a duty to establish the rule of Allah (Shari’a) in it, and it is the path toward conducting the larger duty, which is liberating the one-and-half billion-person nation and regain its holies. So while we are conducting jihad in Afghanistan and bleeding down the head of the international apostasy, until it reaches such weakness that the Muslim people have regained some self confidence and daring, and removed some of the oppressive pressure that was exhausting and failing anyone who thought of crossing Americas agents, the pressure of the supreme power that threatened to keep whom it desires and remove whom it desires, and with the gradual deterioration of that pressure, the comprehensive revolutions launched at the hands of the people whose extreme majority are Islam loving.

Page 3

So we have to get into expanding the programmed and directed media, and our efforts in directing the nation’s research and deciding on a specific plan that we all discuss, as the oncoming stage is important and very dangerous and does not tolerate the apparent differences in our directives. Initially I would see that one of the most important steps of the oncoming stage is inciting the people who have not revolted yet, and encouraging them to get against the rulers and the methods, indicating that it is a religious duty and a logical necessity, so the arrows are concentrated on toppling the rulers without discussing the differences on issues, while paying maximum attention to spreading awareness and correcting the understanding, and we send to the brothers in all the regions to pay attention to spreading the book (understandings that must be corrected) by Sheikh Muhammad Qutb).

And due to our efforts in plugging that gap and preparing a plan to guide the nation, we must mobilize all the resources that have expressive abilities in speech, poetry, visual, or audio and devote them completely toward directing and guiding the nation’s youth; and we leave running the work in Afghanistan and Waziristan to the resources that have field and administrative abilities, and do not have expressive abilities.

Please inform Sheikh Yahiya and the other brothers who have expressive abilities on the previous parts of the message, and
inform me of their opinions without missing any of them, as every voice that can contribute in this stage should not be excluded.

General points after the second message:

- Enclosed is a statement to the nation in regard to the revolutions. Please review it and if there are remarks on parts of it by the brothers then there is no problem in revising it. Then send it to al-Jazeera Network, noting that I have enclosed a copy of it in a new card (TN: thumb drive or memory card) with nothing else on it, so please expedite its release and broadcast due to the importance and developments of the events.

- Regarding the paper you sent that is titled, “Elements for Research Regarding the Arab Revolutions,” it is very important, so please start researching it and I might comment on it and on all your media activities after the revolutions in the next message, due to lack of time.

Page 4

Enclosed is a file titled, “Suggestions toward Resolving Crises in Yemen,” if you could rearrange the ideas in it and reshape them and publish it under your name, or if you do not see that as appropriate, put my son’s Khalid name on it and direct the article to the scholars and dignitaries of Yemen. The situation requires expediency in that as much as possible.

- It would be nice to remind our brothers in the regions to be patient and deliberate, and warn them of entering into confrontations with the parties belonging to Islam, and it is probable that most of the areas will have governments established on the remnants of the previous governments, and most probable these governments will belong to the Islamic parties and groups, like the Brotherhood and the like, and our duty at this stage is to pay attention to the call among Muslims and win over supporters and spread the correct understanding, as the current conditions have brought on unprecedented opportunities and the coming of Islamic governments that follow the Salafi doctrine is a benefit to Islam. The more time that passes and the call
increases, the more the supporters will be of the people, and the more widespread will be the correct understanding among the coming generations of Islamic groups.

- Regarding the operations that the brothers in Yemen are intending to conduct using poison, please be careful of doing it without enough study of all aspects, including political and media reaction against the mujahidin and their image in the eyes of the public, so please pay attention to the matter.

- Regarding the communications with the brothers in Iraq, please inform us on its progress and the reason for its scarcity.

- Regarding the brothers coming from Iran, you are the more knowledgeable of the security situation on your side and in Baluchistan, so arrange for them the most secure places, and Allah is the protector.

- Regarding what you mentioned about the British intelligence saying that England is going to leave Afghanistan if Al-Qa’ida promised not to target their interests, I think their stance is similar to the people of Damascus when Khalid Ibn Al-Walid entered it, and they became sure of being defeated, so they hurried to hold a peace treaty with Abu 'Ubaidah Allah be pleased with him, so I say that we do not enable them on that, but without slamming the door completely closed.

Page 5

- As far as the French hostages with our brothers in the Islamic Maghreb, I want to warn that the atmosphere after the French standing towards the Libyan people does not condone killing the French, due to what will follow of negative reflections, after it became evident that most of the common people are supporting Sarkozy, so if we need to kill them then that should be after the end of Libyan events and their developments, and the better benefit as far as I see is to exchange the woman with the best that would benefit you and the brothers there, as far as the men, if the brothers can wait, then they should keep them
until the elections, and if that is difficult then they should exchange half of them and keep the other half which should be the higher ranking and the more important ones, and if that also is difficult then they should at a minimum keep the most important man of them till the French elections, and it is better that the negotiations not be public and that they place a time limit on it so that the French do not postpone the exchange till the elections (TN: possibly after the elections) so that it’s a winning card in their hands, even though the remaining period to the election is not that short.

- Regarding the British officer captured by our brothers in Somalia, I say that we attempt to exchange him for our prisoners with them, or with their allies, so if this happens then it is what we want, and if they reach a road block and they cannot keep him as a pressure card on France to leave Afghanistan before Sarkozy elections, then he is to be ransomed with money, and they be made aware of what I said about the ramifications of killing the French in this stage, even though the reaction to killing would be less if the killing was from their side vs. if it is from Al-Qa’ida in Islamic Maghreb side.

- It would be nice to ask the brothers in Somalia to inform us of the economical situations in the states they control, as it is obvious that enabling people’s livelihood is an important part of the religion, and it is the most important duty of the Emir, so there must be an effort to establish an economical power, and I had in a previous message to you written some economical suggestions to be sent to the brothers in Somalia, then I did not receive from you an indication that they were sent, so if they were sent it is important to follow up on them, and they were not send because of an obstacle, I have enclosed them in the message to resend them to them.

- It would be good to send advice to the brothers in Somalia about the benefit of doubt when it comes to dealing with crimes and applying Shari’a, similar to what the prophet (PBUH) said, to use doubts to fend off the punishments.
- As far as what you mentioned of the desire of some of the brothers to go to the revolution fields in their countries, I have written in my message to you before I knew their desire the necessity of sending some qualified brothers to the field of the revolutions in their countries, to attempt to run things in a wise and jurisprudent manner in coordination with the Islamic powers there, while studying both sides of the benefits and which way is better before any of the brothers go. First of all, there must be confirmation of the safety of the route, that is for the brothers whom we would ask to go, or the brothers who did not insist on going, and for those whom you notice are highly excited and cannot withstand staying, so those whose conditions you accommodate and allow to go while doing the best to secure the best safe routes for them.

- As far as Sheikh Bashir Al-Madani (Yunis), if the place in which he is currently located is safe, then he should postpone his travel until the regime in Syria or Yemen falls, and as far as the brothers with him, they should be dealt with as I have explained in the previous item.

- I read the message of Sahib Al-Tayib, and your response to it, and it seemed to me that the message indicates that some information has been leaked to Sahib Al-Tayib through some of the scholars who are connected directly or indirectly to the government, or though some of the scholars who may have a personal opinion that follows the public opinion of the importance of stability in the Gulf, so they wanted to hint to Sahib Al-Tayib about the seriousness of instigating the situation in the kingdom so that he asks us about that, so he in turn only hinted at it, that is one way of reading that message, so I ask that you read it again in an analytical way and tell me about what you come up with by reading it, and also enclose a copy of it to Sheikh Abu Muhammad.

- Regarding brother Tufan and what you asked of reviewing his writings, due to the many duties and shortage of time, I will ask that Sheikh Abu Muhammad does that, so please enclose the writings of the brother to him, but in general I say that the stage now is to spread awareness in the
nation after all the flood of good, praise Allah, so it should be given attention and good direction.

- Regarding Hamzah, Allah reward you for your effort in getting him out, and as far as the options you presented, I say the third option, which is that he should get out ASAP to Baluchistan, where it is only a way to reach Sindh, so he should not wait there except long enough to continue travel, and should not meet with any of the brothers there, and after he arrives in Sindh, he will contact a person in Peshawar, whose number we enclosed in a message to Hamzah, to agree on a specific location to meet in Peshawar.

Page 7

Then Hamzah will inform the person who will accompany him of the place that he agreed to meet with his friend in Peshawar to take him to it, and he is a trusted person, and we informed him that Hamzah will contact him in the near future, and his name will be Ahmad Khan. The method of getting out will reach Hamzah in detail when he receives his message, which is enclosed.

As far as him getting training until you arrange for him to get out, I say that he stays low in this stage and postpones the training to another opportunity, and that he does not get out unless for important necessity, and if he has to go out, then he should not take his son with him, which is what I pointed out to Sheikh Sa’id in the past about distancing the non-concerned with the work as long as there is danger, so children would be primarily included in that caution, and I had asked for that after there was a publication for Al-Sahab that showed a child standing next to one of the brothers while the brother was preparing explosives, so please draw the attention of all of the brothers to that.

Note: This thumb drive (TN: the word used is the same word used for telephone SIM card, so it is possible that telephone memory cards, which are very small, are being used for that purpose) contains a phone number of one of our brothers contained in the message for Hamzah, so please do not copy the message for Hamzah, and after Hamzah copies
the phone number on paper, destroy the card for fear of compromise.

- We were told that Hamzah sent you numbers of his brother Muhammad, and enclosed with it specific messages, so that one of the brothers would call him and relay the message to him. So, if there are still communications, it would be good that one of the brothers calls him from one of the places that are safe to call from, and informs Muhammad that Hamzah is telling him that his father wants him to go with his mother and siblings to Qatar ASAP, and to live there until the situation is resolved soon, Allah willing, and that they put the effort in obeying Allah and seeking knowledge, and that if it would be difficult to go to Qatar then they should go to Hejaz (TN: Hejaz is another name of Saudi Arabia), noting that Hamzah may have other points to relay to them and also the words that are between him and his brother Muhammad, so that Muhammad is assured that the call was from his side.

- Regarding the card (TN: possible ID card) and the license that are prepared for Khalid, please hand them over to Hamzah.

- Regarding the numbers that brother 'Abdullah Al-Sindi promised, please send them to us.

- Enclosed is a message from my son Khalid to brother 'Abdullah Al-Sindi, and a message from his mother to the family (TN: means wife of) of Sheikh Abu 'Abd-al-Rahman Al-B.M. so please expedite.

- Regarding the message that you enclosed to Muhammad Aslam, we transferred it to him, and regarding the sum of money that you said you sent to him, he told us about it, and we might keep half of the amount deposited with us and the other half with him.

Page 8

- It would be good if you inform me about the funds arriving for the mujahidin from inside and outside Pakistan, and to mention the sums coming from each country individually, and
of the sums that you mentioned in your message with the brothers in Somalia.

General points after the message before the first message

- Regarding what you mentioned in your previous message, that the main idea with the brothers on your side was that death is better than imprisonment, and accordingly, that a person should not get out from the circle of espionage (TN: the operating area of the drones), I say that the correctness of the heading does not guarantee the correctness of what comes under it, so when the heading is that death is better than imprisonment was followed with the assumption that leaving the area means imprisonment or capture; while in reality it is proven the American technology and its modern systems cannot arrest a Mujahid if he does not commit a security error that leads them to him so adherence to security precautions makes their technological advance a loss and a disappointment to them. In addition to that, adhering to security precautions is not an issue that a person will commit a human error in, if he really understands the importance of his mission and is capable of staying in hiding until the situation opens up, noting that there is a percentage of people who cannot do that, and those need to be handled in a different manner than the others, and it may be better to provide them with an opportunity in the field.

- As for those whom you have observed as being disciplined and capable, you arrange homes for them on the outskirts of the city, to distance them from the people, which reduces the security dangers, and they will be with trusted companions, and the companions will have some work as cover, as if they lived from it, especially for those who live close by and have observing neighbors.

- And one of the most important security issues in the cities is controlling children, by not getting out of the house except for extreme necessity like medical care, and teaching them the local language; and that they do not get to the yard of the house without an adult who will control the volume of their voices, and we with the grace of Allah have been adhering to these precautions for nine years and
we haven’t heard that any of the brothers were arrested after the events (TN: possibly referring to 11 September) while adhering to the precautions, and based on that, you can inform the brothers that I say that anyone who can adhere to the previous precautions should get out.

Page 9

To sum it up, we are tasked with what is better and more beneficial for Islam and Muslims, and acceptance of what Allah decides, and there is no doubt that there are different views of what is better and more beneficial, especially with the differences in the fields of work for the brothers.

Note: what I mentioned above of arrangements to get the brothers out of the area is based on the picture you relayed to me in your previous messages, except that you mentioned in your last message that there is improvement in the security situation, so if that continues, which is what we hope for, then what I mentioned above will change according to circumstances.

- Regarding the companion, I wish that you expedite arranging the matter, as there is a written agreement dated 15 January 2011, that after nine months from that date we have secured a replacement for them to be in our company; and you know that arranging for a safe location after picking the suitable person takes time, so it would be good if you inform me of the developments about the companion in every message, and there is no problem if you mention that there are no developments.

- Regarding your meeting with the brother to arrange the affairs about the companion, you should never meet with him, but things in general should be arranged through correspondence. You mentioned in your last message the incident in which brother Riyadh was martyred; maybe it is an anomaly that happened, as the incident was contradictory to the security precautions that I asked you to implement, so please give importance to applying the precautions of not meeting any more than two persons and to reduce movements as much as possible.
- Regarding what you mentioned about Inspiration magazine, please send to the brothers in Yemen with the pointers to remember in that matter and explain to them the danger of its effects, in order to avoid repeating it.

- Regarding what you mentioned about the file that you sent in the past from brother Abu Al-Nur, you were right in what you mentioned, and because of that I did not confirm all that he said, but in general I wanted to encourage anyone that would provide advice, and be keen on handling any issue that is disagreed upon by the brothers in a quiet and kind manner.

- Regarding the operation that Taliban conducted, targeting one of the tribes, and what you mentioned of them saying that the tribe was hostile to the Taliban; even if that is true, the operation is not justified, as there were casualties of noncombatants, and due to its contradiction to jurisprudence, so please continue you advising of Al-Tahrik (TN: another name for Taliban).

- Regarding the message of my (late) son, Sa’d, Allah have mercy on his soul, I say that you delete the copies that you have and I will attach in my next message a copy that I will cut from it what deserves to be cut, then it will go to Al-Sahab archives due to the important information it contains, which exposes the truth of the Iranian regime.

- About what you mentioned regarding the picture of Sa’d, Allah have mercy on his soul, I say that you put his picture while he was working in the shop in Al-Sahab archives, but you do not publish any parts of it without coordinating with us, as for the pictures of him killed, they are not to be put in Al-Sahab archive.

- Regarding the serious warning that you included under the file “serious warning,” Allah reward you, and it would be better that you attach such important items inside the file of your message to ensure that I receive them and read them.
- Regarding the French statement, and what you mentioned about not being sure that al-Jazeera had broadcast it; they have broadcast it and they interviewed some personalities to analyze it.

- Regarding the poem, Allah reward you with all good; and I say that you do not send it to the brothers.

In closing, I pray to Allah to protect you and guide you to what he approves of.

(TN: Religious farewell)

Signed:

Your brother, Abu 'Abdullah.
